📍 Cali, Colombia

✉️ camilapaladines27@gmail.com

## EXPERIENCE

I currently haven't professional experience. However, I have done some personal and academic projects in which I have tested my knowledge, learned new technologies, and reinforced the concepts I already had. Some of these are:

### ▶ Tomato Time

HTML CSS JavaScript

With this application you can track your concentration time, using the Pomodoro technique, which can be customized to your needs.

### ▶ FitApp

HTML CSS JavaScript Firebase

This app can help you track your weight, BMI, muscle mass percentage and water percentage.

### ▶ Personal Website

React.js SCSS

This is my personal website or portfolio where I show the projects I have done around Frontend Development.

### ▶ Purple Calendar

HTML CSS JavaScript

This is a simple monthly calendar that allows you to navigate between months. Here you can also go to a specific month and year.

More details can be found at [camilapaladines.netlify.app](https://camilapaladines.netlify.app).

## EDUCATION

### ▶ Computer Science and Engineering

Pontificia Universidad Javeriana - Cali, Colombia

2018 - 2022
