EXPERIENCE

I currently haven't professional experience. However, I have done some personal and academic projects in which I have tested my knowledge, learned new technologies, and reinforced the concepts I already had. Some of these are:

▶ Tomato Time

HTML CSS JavaScript

With this application you can track your concentration time, using the Pomodoro technique, which can be customized to your needs.

▶ FitApp

HTML CSS JavaScript Firebase

This app can help you track your weight, BMI, muscle mass percentage and water percentage.

▶ Personal Website

React.js SCSS

This is my personal website or portfolio where I show the projects I have done around Frontend Development.

▶ Purple Calendar

HTML CSS JavaScript

This is a simple monthly calendar that allows you to navigate between months. Here you can also go to a specific month and year.

More details can be found at camilapaladines.netlify.app.

EDUCATION

▶ Computer Science and Engineering

Pontificia Universidad Javeriana - Cali, Colombia

2018 - 2022
