ABOUT

Frontend Developer with 4 years of experience specializing in the design and development of high-performance web and mobile applications. Expert in building intuitive, scalable, and user-centric interfaces using React, React Native, and TypeScript, with a strong focus on clean architecture and performance optimization. Experienced in integrating modern cloud architectures (BaaS) like Firebase and Supabase, as well as managing automated deployment pipelines. Professional English level C1.

EXPERIENCE

Mobile Developer - Ivy

February 2025 - Present

- Developed a cross-platform mobile application for event management using React Native, TypeScript, and NativeWind, optimizing the UX for organizers and suppliers.
- Integrated and consumed Supabase as a Backend as a Service from the frontend for authentication, database management, Storage, and server logic with Edge Functions.
- Integrated Wompi payment gateway and Google Maps API to enable secure financial transactions and real-time geolocation features.
- Managed automated deployments to the App Store and Google Play using EAS, streamlining the application delivery lifecycle.

Frontend Web/Mobile Developer - Pijon

June 2022 - Present

- Developed scalable web applications using React, TypeScript, and Firebase, improving maintainability and performance.
- Built and deployed a cross-platform mobile application with React Native, enhancing accessibility and user engagement.
- Managed manual deployments using Firebase Hosting, ensuring seamless production releases.
- Optimized API consumption and UI rendering to improve overall user experience.
- Collaborated with multidisciplinary teams to enhance product features and implement development best practices.

Frontend Web Developer - Ninus Design & Technology

March 2022 - June 2022

- Developed and maintained responsive web interfaces using React and SCSS, ensuring pixel-perfect implementation of UI/UX designs.
- Integrated REST APIs to dynamically fetch and display data, improving application interactivity.
- Collaborated with designers and backend developers to ensure seamless integration between UI components and APIs.

EDUCATION

B.S. in Systems Engineering and Computer Science

Pontificia Universidad Javeriana · Cali, Colombia · 2018 - 2022

SKILLS

Languages: JavaScript, TypeScript, HTML, CSS, SCSS

Libraries & Frameworks: React, React Native, Redux, Zustand, TailwindCSS, NativeWind

Tools & Platforms: Firebase, Supabase, Git, GitHub, Figma, Expo, EAS

PROJECTS

Alle Shop: E-commerce application featuring user authentication, shopping cart management, and a favorites list.

Flashcard app: Interactive web application for studying with flashcards, including progress statistics.

Markdown editor: Real-time text editor with Markdown syntax support, local storage, and dark/light mode toggle.
